

Care and instructions for your knitted knocker:

1. When you receive your knocker, you will notice that it is left open at the back. This is to allow you to adjust the amount of filling you need.

When you are happy with the filling, tighten the thread, secure it and trim the ends.

2. The knocker fits inside your bra, like this:
It sits next to your skin.

3. The knocker is made of 100% cotton, with a soft, non-allergenic filling. It is machine washable (on a gentle wash) and should be dried flat.

4. If you have any problems, or questions, please contact us.
